Influence

[an overview of similar artists as determined by Spotify's "related artists" to be visualized in a tree map or hierarchical diagram. A look at whether some artists' music has evolved in a similar trajectory to artists who pioneered the Westside Sound, chart type to be determined, but I am considering a series of bar graphs in a side-by-side layout for comparison.]

The Westside Sound Today

[a “fun fact” section to explore the presence of Chicano Soul today via an interactive visualization of samples, features, new/re-releases, etc. Considering the use of a waffle chart as used in my exploratory project. On click or mouseover, reveals details such as song name, project, re-release, cover name, etc.]
